

ROBIN FÉLIX

DJ set

TECHNICAL RIDER · SEPTEMBER 2026 · delaubelabel.com

1 — OVERVIEW

Solo DJ set, playing from USB (rekordbox) and vinyl. One performer, no crew.

2 — SET LENGTH

To be agreed in advance. Any length from 60 minutes upwards.

3 — MEDIA PLAYERS

2 × of any of the following, linked by network:

- Pioneer DJ CDJ-2000 Nexus
- Pioneer DJ CDJ-3000
- Pioneer DJ XDJ-1000 mk2
- Pioneer DJ XDJ-700
- Denon SC6000 (M)
- Denon SC5000 (M)

4 — MIXER

1 × of the following:

- Allen & Heath Xone:92
- Allen & Heath Xone:96

5 — TURNTABLES

- 2 × Technics SL-1200 / SL-1210 mk2, with slipmats and cartridges in good working order.
- Turntables are used for part of the set only. If they are not available, please say so in advance — the set can be played entirely from USB.

6 — BOOTH AND MONITORING

- Booth monitor(s) on a separate send, controlled from the booth.
- Booth table at a height that allows the equipment to be used standing.
- Mixer positioned centrally, between the two media players.
- Sufficient 230 V power at the booth.

7 — BEFORE THE SET

- All equipment installed, connected and tested before doors open, including the network link between players.
- Access to the booth before the set to check levels and monitoring.
- Please confirm the available set-up in advance if it differs from the above.

8 — TRAVEL AND HOSPITALITY

- Travelling as one person from La Tour-de-Peilz, Vaud, Switzerland.
- Accommodation for one person for sets ending after 23:00, or where same-day return travel is not practical.
- Travel, accommodation and catering to be agreed in the contract.

All points above are open to discussion. If any element is difficult in your venue, please get in touch — the set-up can usually be adapted.
